SPRING AND FALL, 1917

The **PALISADES NURSERIES**

INCORPORATED

R. W. CLUCAS, Manager

SPARKILL, N. Y.
(ROCKLAND COUNTY)

INTRODUCTORY REMARKS AND TERMS

THE plants offered herein are all sturdy, transplanted and nursery-grown for more than one year, and can be depended upon for flowering satisfactorily the first season after planting out.

Our stock of plants is reasonably large; we have thirty acres of hardy plants in cultivation. We make a specialty of supplying **Landscape Gardeners, Dealers and others in the trade.**

We print real prices, which, as long as unsold and without engagement, we are willing to accept. The prices are net, except being subject to 2 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. Packing charges at cost, f.o.b. Sparkill, N. Y. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

No less than six of one kind furnished at dozen rates, 25 at 100 rates, 250 at 1,000 rates, unless otherwise specified. Clumps (or plants of extra-large size) can, in most cases, be supplied. Prices on application.

For varieties not listed herein see our Descriptive Catalogue of Palisades Popular Perennials. From prices quoted therein we allow the trade a special, liberal discount.

PHLOX DECUSSATA IN MIXTURE

In going over our Phlox during the growing season, we find many sorts sporting, which are always carefully removed and thrown together in mixture. Besides, names are sometimes lost by accident. This mixture

PHLOX DECUSSATA, continued

contains some of the best types of all colors, making them suitable for massing where no particular color effect is desired. Strong, field-grown roots, in mixture, 60 cts. per doz., \$4 per 100, \$35 per 1,000.
